Application For Membership

Probationary Firefighter

To Applicant:

The Grantsburg Fire Department provides fire suppression, emergency rescue services, public fire education, and fire code enforcement to the Village of Grantsburg, and the Towns of Anderson, Grantsburg, Trade Lake, West Marshland and Wood River. The Grantsburg Fire District is approximately 228 square mile area with a population of nearly 4,600 people. The Fire Department also provides mutual aid to local, county, state, and federal agencies throughout Burnett County as well as neighboring counties in Wisconsin & Minnesota.

As firefighters, volunteer or career our duties are the same, the protection of life and property. If you are appointed as a probationary firefighter with the Department, you are committing yourself to many hours of training, maintenance, and fire service activities. Your commitment to the Department should be discussed with your family. Your family must be supportive of your desire to join the Department.

As a probationary firefighter of the Department you will receive training from State of Wisconsin Fire Instructors. You will be trained on how to respond to various types of incidents, how to work within the chain of command, and you will learn how to operate and care for Department apparatus and equipment.

Firefighting is the very hardest form of labor under the most adverse conditions. The Department is committed to helping others when they need help the most. You will not find a more personally rewarding endeavor than serving on the Department.

Thank you for your consideration in becoming a probationary firefighter with the Grantsburg Fire Department.

Respectfully,
Cory Barnette, Fire Chief

“This institution is an equal opportunity provider and employer.”
